JURY REPORT

The Jury of URUGUAY 2025, FIP Patronage Specialised World Stamp Exhibition has completed judging and we are pleased to present this report.

The Jury judged a total of **265** exhibits and we have found that the quality of the exhibits shown here is very high. We have awarded **37** Large Gold medals and **66** Gold medals. We are also pleased to see many exhibits that have made improvements since they were shown in previous stamp exhibitions.

15 exhibits were transferred to a different class to ensure they achieved better awards. Unfortunately, **5** exhibits (including literature) did not arrive and hence could not be judged.

The Jury would like to thank the URUGUAY 2025 Organising Committee, the FIP consultant and the National Commissioners for their efficiency and hard work. We are grateful for the Invited Exhibits that has been specially displayed which have created enormous interest amongst the philatelists.

Finally, we wish to thank the hospitality and friendship of all the URUGUAY 2025 volunteers and the facilities and support provided by the Organizing Committee.

On behalf of the URUGUAY 2025 Jury.

Punta del Este, Uruguay, 21 February 2025.

URUGUAY 2025 EXPERT GROUP REPORT

The Expert Group of URUGUAY 2025 inspected as many exhibits as possible in each competitive class. Dubious items reported by judging teams were checked.

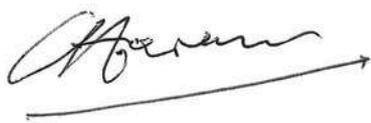

As a result, a total of 14 items were identified either by the Group or by a judging team. Where a closer examination was required than was possible in situ, items were removed from the frame for closer examination and the recommendations of the Expert Group were as follow:

No action required	1 item
Has to be certified	10 items
Do not exhibit again	2 items
Improve description	1 item
New certificate required	1 item

The reports of the items examined together with illustrations in duplicate were handed over personally to the National Commissioners concerned for onward transmission to respective exhibitors and National Federations. This would ensure that the decision had been properly conveyed. Copies of the same documents in colour were retained for FIP records.

The Expert Group, consisting of Christopher Harman, Everaldo Santos, Ian McMahon, and Yosuke Naito would like to thank the judging teams and the National Commissioners for their co-operation as well as the Organizing Committee for the excellent facilities for the smooth working of our group. Also, thanks are due to the President of the FIP, Jury Secretary and Assistant Jury secretary for their advice and assistance.

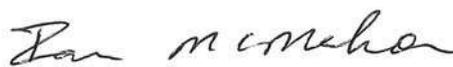

Punta del Este, 21 February 2025

Exhibitor Award Medal

Federación Uruguaya
de Filatelia

24-karat gold plating finish

URUGUAY 2025 AWARD MEDAL: The logo of the exhibition is intricately carved on it, and the number 200 refers to the 200th anniversary of Uruguay's Declaration of Independence.

At the bottom of the logo, you can see the name of the event venue, the MACA Museum in Punta del Este.

This is a medal struck in relief, with a 24-karat gold plating finish.

Grand Prix Awards - Federación Uruguaya de Filatelia (FUF)

Federación Uruguaya
de Filatelia

Grand Prix International

Amethyst stone piece

Grand Prix National

Amethyst stone piece

Uruguayan amethysts are globally recognized for their exceptional quality, deep violet color, and well-defined crystals.

Mined primarily in Artigas, these precious stones are an integral part of the country's geological heritage and stand out for their purity and unique brilliance. Their volcanic origin and formation over millions of years make them a natural treasure, highly valued in both jewelry and mineral collections.

Moreover, their authenticity and beauty strengthen Uruguay's identity in the international gemstone market.

Special Prize - Círculo Filatélico de Montevideo (CFM)

Silver and gold Mate

It's a silver and gold Mate. Mate is a traditional South American infusion, deeply rooted in Uruguayan culture. It is made by steeping dried yerba mate leaves in hot water and is typically consumed from a mate, a hollowed-out gourd or a wooden or metal cup.

The drink is sipped through a metal straw called a bombilla, which filters out the leaves. Unlike tea, the yerba mate is not removed; instead, hot water is continuously poured over it, allowing for multiple refills.

In Uruguay, mate is a daily ritual, enjoyed at home, in the streets, at work, or even on the beach, always carried in a thermos to keep the water hot.

ProvenanceFinder

Corinphila &
Köhler Summit
You are all invited!
20 February 2025
3:00 pm

A new era of philatelic knowledge has begun.

Thanks to ProFi, our philatelists can now make important statements about provenance, rarity, significance, quality and value, when they prepare the lot descriptions for material consigned with us.

Collectors who sell or buy through Heinrich Köhler, Corinphila Auktionen, Corinphila Veilingen, John Bull and H.R. Harmer will gain this added value facility as part of our service to you.

Consign now to us and **ProFit!**

Meet us at stand 1
